

**Years:** 2005

**Title:** Strip-till Crop Production

**Crop:** Dryland Soybeans

**NSFGPP Operator:** ARDC

**Private Industry Cooperator:**

**Objective:** Determine and document the effect of strip tillage on the profitability of crop production.

**Treatment:** No-till vs. strip-till (spring operation)

**Results:** 2005

	<u>No-till</u>	<u>Strip-till</u>	<u>Prob&gt;T/</u>
Non-Irr., Corn, bu/ac at 15.5'	131	135	0.1293 ns
Cost/ac		\$5.75	

**Summary:** Strip-tillage did not increase the grain yield of non-irrigated corn.
